CLAS SUGAR. The sugar king of the Sandwich Islands, is King W. H. Hart, of the San Francisco Examiner for \$1,000,000 damages, because of some publication concerning the sugar trust.

MR. BRYAN says, "we democrats are indebted to Mr. Hanna for making so many promises that have not been fulfilled." This is a politician's standpoint; the people would be under greater obligations to him if his promises were fulfilled.

The birthday edition of the Atlanta Journal was something interesting. The progress of the Journal is phenomenal, and is a matter of pride to all Georgia, as is attested by its rapidly increasing circulation. Next to the Times, it is the most widely circulated democratic paper in this country.

The republicans keep turning the screws out, and in so doing are looking out for the "infant industries." More than a hundred fourth class postmasters were appointed in one day last week, seventy-four of them being to offices made vacant by the removal of the democratic incumbents.

SAVANNAH is just now infested with a kind of petty sneak thieves who are making a specialty of clothing etc. The thieves go into the halls of private residences at the evening and take coats, hats, shoes, and such other things as are under their hands.

Those old war reminiscences, one of which was published last week and another appearing today, are interesting reading matter. Those who are acquainted with the old families of Bulloch and adjoining counties will find the names of many whom they knew in former years, and the remembrance will be pleasant.

EX-POSTMASTER-GENERAL WAMAMAKI recently made a public speech criticizing the administration for a failure to bring on the good times which have been so long promised. The President told him in Philadelphia a few days ago and took him to task for his criticism, intimating that his republicanism was not good, but the Sunday-school teacher and merchant prince declared that he was as strong a republican as know. And we guess he is, for we know what other party he could belong to.

A MOVEMENT is on foot to exclude all Union visitors from the Confederate reunion in Nashville this summer; and this is right. The G. A. R. has never lost an opportunity to express distrust in, and contempt for, the wearers of the gray, even causing a partisan history to be published in the north characterizing the Confederates as traitors, and it is time for our men to show that they were as strong a people as they were. It is right to meet the G. A. R. half way in burying the hatchet, but the U. C. can't afford to have it carried in their hand, as the Yankees seem to want.

Latham, Alexander & Co. of New York estimate that the cotton acreage of the present season is 970,000 acres, 1.1 per cent. larger than last year, and that the average planting season is three weeks later than last year. These conclusions are reached from 2,000 acres sown received from correspondents in all sections of the cotton belt. The increase of acreage in Georgia is placed at 1 per cent., in Alabama at 5 per cent., in Louisiana at 3 per cent., and in Texas at 8 per cent. Mississippi is the only state which shows a decrease. The condition there is accounted

BUSY MONTH FOR FARMERS

The Work That Should Be Done During June.

MR. NEEBITH'S MONTHLY LETTER.

George Neebith, of Agricultural Editor of the Georgia Farmer, writes: "The month of June is the most important of the year for the farmer, as it is the time when the crops are being planted and the soil is being prepared for the next year's work."

EXPONENTIAL ISSUE.

The Times desires to make known to its Bulloch county readers, its intention to issue an exponential issue, for free distribution at the Nashville centennial this fall, and to ask their cooperation in the matter.

The intention is to get out eight thousand copies of a twelve-page paper descriptive of Bulloch county and her resources, with a view to attracting the attention of any who may be interested in immigration. If this is done in a creditable manner there can be no doubt of its effect in attracting some prospective immigrant who may visit the exposition, and to that end we ask the assistance of our friends in getting out the issue.

It is no money-making scheme of ours, but it will cost money to get it out. All we want is assistance in bearing that expense. We might have a photograph gallery of the prominent men of the county—old soldiers, merchants, lawyers, deserving politicians, etc.—with short biographies accompanying at a moderate price, and this help to defray the expense of getting out the paper.

We state the matter publicly so that those to whom we may go for assistance, shall have time to consider the matter and be prepared to state what they can do in the matter. Think it over and make up your mind whether or not you care to lend it or not, we shall be obliged to you if you do.

THE 7TH GEORGIA CAVALRY.

History of the Company Written by One of the Members.
The Seventh Georgia Cavalry was composed of men from Bulloch, Hancock, Effingham and Screven counties, and was formed in May, 1862. The company stayed six weeks in Savannah, then moved to Charleston, where it was disbanded. The members of the company are now scattered all over the state.

One who was a member of the company, writes: "From Georgia we were sent to the 'Bryan Neck' and put under the command of Mr. McAllister. From there we were sent to Virginia, and on April 22, 1862, we rode into battle at Richmond where many of our brave boys were slain."
